Profile

Upon graduating in 2012, I started my career in physical therapy . Working in physical therapy clinics I gained experience working with patients and health insurance. During this time I started thinking about how technology could change and improve the health care and health insurance industry. I started to teach myself how to code, and now I am in the General Assembly Web Development Immersive Course.

Skills

- Languages: JavaScript, Ruby, HTML, CSS
- Frameworks: Node.js, Express JS, Rails, AngularJS, Sailsjs
- Database Tools: SQL, PostgreSQL, Sequelize, ActiveRecord
